## **Re: Request for Solar Panel Radar Speed Limit Signage on Loch Lomond Road**

The PSSC (Parent School Support Committee) would like to acknowledge the city's assistance in 2017-2018 in implementing an enhanced crosswalk at the corner of Loch Lomond Rd and Evergreen Ave. This has increased the safety for the children of Loch Lomond School and the surrounding community when gaining access to our school.

That said, we are further requesting the addition of Solar Panel Radar Speed Limit Signs on Loch Lomond Rd, where the School Zone Speed Limit signs currently exist. Despite the speed limit decreasing to 30km/hr in this section by our school, traffic continues to pass through at speeds exceeding this limit. This stretch of the road is considered a Provincial Highway, and with heavy traffic and higher speeds, it is felt that the radar speed limit signs will bring the significant speed reduction to the attention of drivers. As many other schools in our city - who are not located on stretches of Provincial Highway - have had these previously installed, we feel that this type of signage would complement the current safety precautions at our school location.

We appreciate and thank you for considering this request as we seek to make our school and its community the safest it can be. Should you be interested in visiting the site and observing the need for the radar speed limit signs during school hours, please connect with me directly or reach out to our school principal, Gail Fillmore-Crilley.

Yours Truly,

Jill Comeau, PSSC Chair
