RECOMMENDATION

It is recommended that this report be received and filed.

EXECUTIVE SUMMARY

The purpose of this report is to inform Council of a Public Information Session that will be held in relation to the Ellerdale Street (Valley Street to Margaret Street) – 200mm Water Main project, and to update Council on the status of the project.

PREVIOUS RESOLUTION

July 30, 2018; (M&C 2018-219) 2019 Water & Sewerage Utility Fund Capital Program Approved.

February 25, 2019; (M&C 2019-34) Contract 2019-12 Ellerdale Street – 200mm Water Main Awarded.

REPORT

The approved Water & Sewerage Utility Fund Program includes funding for the installation of a new 200mm water main on Ellerdale Street, between Valley Street and Margaret Street, to facilitate the removal of water services from the 400mm Concrete Pressure Pipe (CPP) and to repair the holes where the services were removed.

Tenders for this work were closed on February 14, 2019 and the contract was awarded to the low-bidder, Galbraith Construction Ltd.

This is a significant project that will have an impact on the traffic flow through the local area during construction.

It is for this reason that staff have decided to hold a Public Information Session to allow local residents and business owners an opportunity to view the project design drawings, ask questions and give their feedback. The Public Information Session will be held at the Simonds Lions Auditorium at 185 Loch Lomond Road (Loch Lomond Villa) on Wednesday, March 27, from 5-8 p.m. This report is being provided for the information of Council and to extend an invitation to any Councillors who may wish to attend the Public Information Session.

The Public Information Session will be advertised on the City's website and copies of the attached notice will be delivered door to door in project area.

STRATEGIC ALIGNMENT

This report aligns with Council's Priority for Valued Service Delivery, specifically as it relates to investing in sustainable City services and municipal infrastructure.

SERVICE AND FINANCIAL OUTCOMES

The installation of new the infrastructure will reduce the likelihood of future service disruptions to the local residents due to infrastructure failures.
