

PROGRAM AIM

The *Heritage Grant Program* is an incentive program designed to encourage property owners to meet the spirit and intent of the *Saint John Heritage Conservation Areas By-Law*, as expressed in the *National Standards for Conservation of Historic Places in Canada* and Saint John's own series of *Practical Conservation Guidelines*. Heritage Grants are not construction subsidies; they are intended to assist owners to retain traditional materials and details of character-defining elements and, if necessary, replace them with new components, matching the original materials and profiles.

OBJECTIVES

Primary:

- To encourage retention of designated heritage buildings and their character-defining elements, including their materials and details;
- To maximize conservation of the character-defining elements of designated heritage buildings using an approach of: understanding, documenting, planning (for proposed use) and then intervening.

Secondary:

- To create employment opportunities for the citizens of Saint John;
- To discourage demolition of designated heritage buildings;
- To reduce waste and the impact on the environment by demonstrating that the greenest building is one that already exists;
- To encourage owners to undertake necessary but costly major conservation projects.

CATEGORIES OF GRANTS

1. **Heritage Maintenance Grant:** A grant available to any designated heritage property; also available to tenants for storefront signage. Covers 25% of approved costs, up to a maximum of \$750 annually.
2. **Heritage Window Grant:** A grant available to any designated heritage property. Covers the repair, the replacement or the reintroduction of windows based on the following percentages:
 - a) Repair of wood windows: 45% of approved costs to a maximum of \$7500 annually.
 - b) Replacement or Reintroduction of wood windows: 35% of approved costs to a maximum of \$7500 annually.
 - c) Replacement or Reintroduction of Heritage Development Board-approved aluminum-clad wood windows: 20% of approved costs to a maximum of \$7500 annually.
3. **Heritage Conservation Plan Grant:** A grant provided to offset the cost of retaining a design professional (architect or engineer) to prepare a Conservation Plan for designated heritage properties, enabling access to the Heritage Conservation Grants (below). A Conservation Plan provides the property owner with a phased plan to undertake required heritage/structural work. Covers 50% of costs, up to a maximum of \$1500.

4. **Heritage Conservation Grant:** A grant to support large conservation projects for properties which have a Conservation Plan in place. There are two levels of funding provided by the Conservation Grant, depending on the nature of the project:

- a) Minor funding: for **maintenance** work, as outlined in the Conservation Plan. Covers 25% of approved costs, up to a maximum of \$7500 annually.
- b) Major funding: for **restoration** work to original character-defining elements, and for major projects such as masonry or structural repair. Covers 45% of approved costs, up to a maximum of \$7500 annually.

5. **Upgrade Grant:** A one-time grant for property owners based on the following conditions:

- a) Work was undertaken in the previous calendar year and received a Heritage Maintenance Grant.
- b) In the active program year, the property owner has obtained a Conservation Plan. The previously reimbursed work is work detailed in the Conservation Plan.

The property owner may apply under this grant to have their Heritage Maintenance Grant reassessed as a Heritage Conservation Grant, with the difference in value paid out. These grant applications are waitlisted to November 30 and are paid out pending available end-of-year funds.
