

**UNB has a transformative impact
on our students, and
on the world around us.**

**UNB is committed to advancing
the human and economic potential
of our City and our Province.**

**The University of New Brunswick
and the City of Saint John
collaborate to create
benefit for everyone.**

**This is an
important and enduring
relationship for both partners.**

UNB is transitioning between leaders.

Dr Eddy Campbell is 'graduating'.

**Dr Paul Mazerolle has been selected
as president-designate,
and arrives in July.**

**Dr Petra Hauf has been appointed
Vice-President Saint John.**

Financial accessibility to post-secondary education is a critical priority for students in Saint John.

We all have a stake in their success.

The *It Begins Here* campaign has successfully concluded, with \$62 million in student support.

Thanks to the generous support of donors, a university education is more accessible to our students than ever before.

In recent years, we've seen six significant capital investments at UNB Saint John, including the signature Hans W. Klohn Commons.

We're proud of the difference made by these projects, for our students and for our community.

We're grateful to have partners like the City of Saint John who help make this progress possible.

**What will UNB Saint John
look like in the future?**

**A growth agenda for our campus
also generates economic and
population growth in our city.
Working together to create capacity at
UNB Saint John creates opportunities
for everyone.**

UNB has embarked on an extensive strategic planning process.

We place a high value on opportunities to collaborate with industry, government, and community organizations in Saint John.

HEALTH & SOCIAL INNOVATION CENTRE:

The UNB Saint John campus is the ideal location for a proposed cluster of health, social innovation, research, collaboration and teaching activity.

This Centre would include UNB, Dalhousie Medicine New Brunswick, Horizon Health Network, the Saint John Regional Hospital and the New Brunswick Community College.
